

# JENNY SCOTT

Jenny Scott creates songs that are somewhere between pop, jazz, soul and blues, but are still too distinctive to really classify. With an enchanting voice and dreamy, adventurous melodies, Jenny proves that making music is a craft that above all should come from the heart and soul.

## NEW EP: DEEP BLACK HOLE Release Date: JANUARY 27, 2017

The five-track EP “**Deep Black Hole**” is a collection of songs with many fresh and interesting layers of modern pop music and good old styles like jazz and blues. The recordings feature Jenny on the main and backing vocals as well as on rhythm and lead guitar. On the title track “**Deep Black Hole**” Jenny processes her difficult relationship with her father. “**Don’t Turn Around**” is a poppy singer-songwriter tune that Scott wrote to remind herself of not giving up on her dream. Working together with other talented young musicians, every song has a complete band arrangement to it, showing what musicians that share the same vibe are able to create together.
